Friday's total of \$42,150 in building permits issued at the city hall made it the record day of the past two months. Most of the twenty-four permits issued Friday were comparatively small, none being for an amount greater than \$10,000. Among the larger ones was that for the erection of a magnificent modern California residence, at a value of \$8,000, at 333 Riverdale Drive. L. E. Hill is the owner.

## BUY IN GLENDALE! SLOGAN OF FAIR BY C. OF C.

Merchants' Exposition Will Be  
Big Event; Space Is Now  
Being Reserved

"Buy in Glendale if it is just as good or better and costs no more."

With a slogan expressing the idea of the Glendale Merchants' Exposition to be held here August 27 to September 3, inclusive, the Chamber of Commerce already is meeting ready response in making this affair a great success.

Contracts were signed yesterday with H. Elmo LaBregue, director general of the Pacific Coast Exposition company, to provide the personnel and equipment for this high class business, style and automobile show and he has already brought to Glendale his principal aides, R. M. Greathouse, publicity manager, and Robert Cavanaugh, business representative.

Blue prints for space under the big tents which will be located at the corner of Harvard and Orange streets are now on file at the Chamber of Commerce headquarters, 115 West Broadway, and several merchants already have selected their space.

James M. Rhoades, secretary of the Chamber of Commerce, has received unqualified recommendations regarding the work done by Mr. LaBregue's organization in Pasadena, Whittier and other southern California cities and it can be predicted with confidence that the Glendale Merchants' Exposition will be a success.

"Through this show I hope to get Glendale people acquainted with local merchants," said Mr. Rhoades. "The event will be in the nature of a trade at home week and 'down home' celebration. There are no carnival features, no gambling concessions, no cheap shows. It is strictly a high class exposition such as is seen only in the larger cities."

### Under Auspices C. of C.

"The event is under the auspices of the Glendale Chamber of Commerce which profits from it and the Pacific Coast Exposition company is simply an expert organization which is paid for directing the enterprise and furnishing the personnel necessary to its success."

"Mr. LaBregue is a man of years of experience in this kind of work, he has been associated with Grauman's million dollar theatre in Los Angeles and from associates in the Chamber of Commerce work I learn that this is a show which 'Glendale cannot afford to miss.'"

"We are going to make the most of this opportunity."

During their absence there was considerable excitement in their neighborhood on Patterson avenue. A neighbor who was looking after the Harris' house during their absence discovered the water had leaked in the bathroom and had flooded all the rooms for over a foot.

They camped for eight days at Pacific Grove, near Monterey, and found the weather so cool there that they had to resort to heavy clothing.

They went north by the coast route and had San Francisco and Oakland as their destination before returning, also visited university at Berkeley. The scarcity of water in San Joaquin valley towns impressed them as much unlike Glendale with its sufficient artesian and springs supply. **STOCK MARKET SHOWS FIRM TONE IN EARLY TRADING**  
NEW YORK, July 23.—The stock market showed a firm tone during early trading today. Steel common held unusually well after the statement by Judge Gary that the government is attempting to collect \$60,000,000 taxes. The first sales were at 72½, off ¼. Bethlehem B was off ¼ at 46½ but quickly rallied over 47. Mexican Petroleum showed little change. All the tire stocks were in demand. Rails were fractionally higher. The market closed strong.

**FIST FIGHT IS AVERTED AT BERGDOLL INVESTIGATION**  
WASHINGTON, July 23.—A fight between Representative Johnson, Kentucky, and Charles A. Braun, brother of Grover Cleveland Bergdoll, was narrowly averted at a session of the house Bergdoll committee today. Johnson had been cross questioning Braun and charged that he attempted to evade questions. "You are a liar," shouted Braun. Johnson started toward him when Braun reached in his pocket as though for a weapon. He did not produce one, however, and the incident ended.

**PRESIDENT OF TRUST COMPANY IS BEING SOUGHT**  
CHICAGO, July 23.—Warren P. Spurgin, president of the Michigan Avenue Trust company is being sought by authorities today following disclosures that the bank is insolvent. The loss to the bank was placed at \$700,000 by examiners today, who closed the institution pending further investigation. George M. Reynolds, chairman of the board of directors of the Continental and Commercial National Bank, one of the biggest financial institutions in the midwest, an uncle of Spurgin, believed the loss would total close to a million dollars.

**ACCUSED BASEBALL PLAYER IS OBJECT OF SEARCH**  
OMAHA, Neb., July 23.—No trace had been found today of Paul Musser, Wichita pitcher and former big leaguer, made defendant in a \$10,000 breach of promise suit yesterday by Helen Tomlinson, who claims Musser is the father of her child born July 2 last. Manager Berger of the Wichita club said Musser did not come here with the team. With the Wichita and Omaha teams fighting for the lead in a "crucial series," Berger said, every effort was being made by the Wichita management to settle the case out of court so Musser could pitch one game of a double header Sunday.

**EVIDENCE MISSING; HUNDREDS OF CASES DROPPED**  
SAN FRANCISCO, July 23.—Hundreds of cases against bootleggers and other violators of the Volstead act will have to be dropped because the labels and tags on the evidence have been destroyed, it was announced at prohibition enforcement headquarters here today. The tags and labels mysteriously disappeared from the liquor while it was in the appraiser's building. S. District Attorney Hayward said here today. Newspapers and picture agencies that brought pictures across the line are also liable. Hayward gave an opinion that the transportation of "still pictures" across state lines is just as much a violation of the federal laws as the transportation of motion picture films. Hayward declined to state if he would take action against any of the newspaper photographers or individuals who took pictures and brought them back to New York or took them into other states.

**MISSING WAIVERS SOUGHT IN 'BLACK SOX' CASE**  
CHICAGO, July 23.—State authorities today were making every effort to locate the waivers of immunity signed by three "black sox" players when they made their alleged confessions of playing a part in "fixing" the 1919 world series. The last witness on the stand in the case against the seven White Sox stars and four alleged gamblers was Hartley Replegle, who was assistant state's attorney during the grand jury investigation of the baseball scandal. It was discovered the waivers were missing according to Replegle's testimony. The alleged signed statements by the three defendants are also missing.

## LOCAL LEGION ASKS ACTIVE MOVE ON BERGDOLL CASE

Adopts Drastic Resolutions on  
Slacker Probe, Also Bonus  
Legislation

Adopting a drastic resolution regarding the Grover Cleveland Bergdoll case, Glendale Post No. 127, American Legion, last night demanded action on this subject and also discussed the attitude of the United States senate on bonus legislation. Following is a text of the resolution:

"Whereas, every good American is appalled at the apathy of our state department in acting to bring Grover Cleveland Bergdoll to this country in order to serve his just term of imprisonment for evading the draft, and

"Whereas, the Glendale Post No. 127 of the American Legion, Department of California, believes the Bergdoll case is an affront to every good American. It belittles the patriotic services of all American men and women in the world war. It has left the power of the United States open to ridicule, disrespect and contempt on the part of the foreign born. Its continuation in its present status weakens faith in American institutions and lessens confidence in the American government.

"Now, therefore, be it resolved: That prompt and efficient action be taken by the American government and that Bergdoll be demanded of Germany and placed in the penitentiary to which he was sentenced, and "Be it further resolved, that a copy of this resolution be sent to the Secretary of State, Washington, D. C., and that the same be spread upon the minutes of this meeting.

Mrs. Begue read "The Greater Baseball Game" and "Pasquale Passes" by Tom Daly in imitable Italian dialect. Admission badges to the festival are on sale at Legion headquarters here.

## Veterans of War and Relief Corps Members Enjoy Annual Outing

About 125 enthusiastic members of the N. P. Banks Post of the G. A. R. and the Women's Relief Corps were present yesterday at their annual outing and picnic held at Echo Park in Los Angeles. The gathering which was an all day affair, was the largest that has been held by the organization in several years, and was thoroughly enjoyed by all. The merry-makers assembled at the beautiful picnic grounds at about 10 o'clock, and after the usual gatherings and handshakings they spent the remainder of the morning by rowing around the lake and enjoying a general "get together" meeting.

Shortly after noon the happy crowd gathered around two long tables, upon which had been laden all of the good things which really make a picnic a success. Nothing was missing in this case, each of the contented guests declaring it the "best ever." Besides the ordinary menu of sandwiches, potato salad, chicken, pickles, etc., the meal was made complete with a generous supply of ice cream, which was furnished for the occasion by Dr. Jessie A. Russell.

The afternoon program consisted of several impromptu addresses, a number of musical numbers and various forms of games. At sunset the gay party disbanded after enjoying "one of the best outings of their lives."

## Roger Babson says:

"If you run through the list of  
the men who are directing the  
country's business, as they come  
to your mind, how many of them  
gained their positions through  
inherited wealth? Astonishingly  
few! There is no 'divine' right of  
kings in business. Statistics  
show that the very few things  
which most people think of as  
advantages—namely, wealth and  
'not having to work,' are really  
obstacles which are rarely sur-  
mounted."

A man with a million, who  
does not earn a penny, has no  
need for insurance; but a man  
who is earning and making money  
needs insurance, no matter how  
much he has already accumulated,  
because his life has an insurable  
value.

Sharpe were hostesses at a very pre-  
tension dinner party Friday night  
when they entertained the group of In-  
termediate school graduates who were  
in the try-out for commencement  
speeches. The affair took place at  
the home of Miss Sallstrom, 221  
West Colorado boulevard.

Three tables were laid, centered  
with tall pink candles, bowls of pink  
and blue blossoms and twined with  
pink tulle. The favors were dainty  
French bouquets made of bright-col-  
ored candies. During the meal Miss  
Marion Jones and Miss Margaret  
Sharpe entertained the guests with  
piano and banjo music.

**They Peek Into Future**

At the close of dinner the young  
people were thrilled by a peep into  
the future, the hostess having con-  
sulted a fortune teller who could  
see clearly what they would all be  
doing in 1930. There followed a  
merry evening of progressive games,  
candy and punch being served at in-  
tervals by the hostesses.

Those who enjoyed the evening in-  
cluded: Katherine Bender, Lucile  
Beach, Beryl Goodale, Margaret Ma-  
jors, Dorothy Godar, Virginia Thom,  
Geraldine Meagher, Elsie Forsyth,  
Margaret Clark, Miss Margaret  
Sharpe, Donald McMullin, Kenneth  
Miles, Douglas Gregg, Jack Finch,  
William Rathbun, Herschel Schaffer,  
James Littell, Alex McDougall, Ar-  
thur Timothy and the hostesses, Miss  
Sharpe and Miss Sallstrom.

## Baptist Young People Enjoy Skating Party

The Baptist Young People's union  
motored over to Alhambra Friday  
night and enjoyed a lively skating  
party at the Walhalla rink. About  
thirty members were present to en-  
joy the skating, and while there  
were a good many "casualties" dur-  
ing the evening no bones were bro-  
ken and the injured ones have hidden  
their bruises and choose to remember  
only the fun they had and the deli-  
cious refreshments that were served  
at the close of the evening.

The social committee for the or-  
ganization consisting of Lawrence  
Stuart, Hugh Freeman, Robert Ford,  
Emery Myers and Stanley Walker  
were in charge of the affair and  
much credit is due them for its suc-  
cess.

## Alice Williams, This Story Is for You

A regular little Indian invaded  
Glendale's business section yesterday  
afternoon.

You bet she did and an ice-cream  
cone was her war hatchet, paint  
n'everything.

This little Indian said her name  
was Alice Williams and that papa  
lived on Windsor Road.

At any rate mama knows how to  
make her look cute and cool in a co-  
stume of red trimmed khaki and  
feathers.

## M. V. CONKLIN GETS HAPPY SURPRISE UPON BIRTHDAY

Driven to Beach and Given  
Party; Likes City, Builds  
Pretty Bungalow Here

Mrs. J. D. Rathbun of 423 West  
Colorado boulevard and her sister,  
Mrs. B. W. Crow of Los Angeles,  
planned a jolly surprise party for  
their father M. V. Conklin of 450  
West Harvard street last Sunday. It  
was Mr. Conklin's sixty-eighth birth-  
day, but he had forgotten the date  
and enjoyed the drive to Santa Mon-  
ica and the picnic on the sand there,  
especially the fried chicken, without  
a thought that he was the guest of  
honor until the big birthday cake  
with "Dad" inscribed on it in col-  
ored icing reminded him that he was  
a year older. The occasion was a  
very joyful one and Mr. Conklin said  
the best that he could wish for him-  
self is that he can enjoy many more  
such happy anniversaries.

Those who enjoyed the day were  
Mr. and Mrs. J. D. Rathbun, Mr. and  
Mrs. B. W. Crow, Mr. and Mrs. Ed-  
gar Hillgas of Los Angeles and Mr.  
and Mrs. Conklin.

**Came Back Here Last December**

Mr. Conklin came to Glendale in  
December for a visit to his daugh-  
ter but after a few months here was  
persuaded that he wanted to make it  
his home and built a pretty bungal-  
ow on West Harvard street. So far  
his life in this city has been a very  
happy one, he states.

Yes, shirts with French cuffs and soft collars  
can be done at home.

But have you ever noticed how soon they  
must be done again?

There's not home laundering process which can  
give clothes the soil-resisting finish we give them

## Britain Is Disarming Already, Is Asserted

NEW YORK, July 23.—Britain al-  
ready is disarming, without waiting  
for the Washington conference, Vis-  
count Northcliffe declared upon his  
arrival here today on the Aquitania.  
Northcliffe said he believed the pro-  
posed disarmament parley to be of  
the utmost importance to the peace  
of the world.

"But we already are disarming,"  
he added. "Many of our warships  
are idle. Out of Southampton there  
is a long row of them rotting. We  
are spending such a small sum on the  
navy these ships cannot be kept up.  
Our navy personnel is now 10,000  
below the peace estimate of January,  
1914. There are but 350,000 Brit-  
ish soldiers throughout the world,  
and this includes territorials and all  
branches of the service."

Discussing the Irish situation,  
Northcliffe said:

"I think it's going very well. Of  
course, a quarrel that has lasted 700  
years won't be settled in seven days.  
There probably will be some more  
fractional fights. There always have  
been."

Northcliffe said he believed the  
Ulster parliament would be perma-  
nent under the peace settlement. He  
also stated that under the proposed  
settlement, Ireland could charge

duty on goods imported from Eng-  
land.

"That would be about the same as  
Long Island charging duty on goods  
imported from New York," he added.

Northcliffe revealed the question  
of calling De Valera to London for  
a parley with Lloyd George had been  
under discussion since last Novem-  
ber. He said the plan was not gone  
through with, however, until De Val-  
era convinced the British that he  
could enforce a truce if one were to  
be declared. The Irish settlement,  
he added, is being drawn along lines  
as suggested in the Northcliffe news-  
papers a year ago.

## ALWAYS ROOM FOR ONE MORE BOY OR GIRL IN CLUB

And There's Bicycle for Every Worker That Gets Required Number of Subscribers

A bicycle for every boy and girl that gets twenty new yearly subscribers or their equivalent for The Glendale Evening News has caused more commotion the last week than a mouse in milady's slipper.

Earnest effort, ambitious attack, steady solicitation and plenty of politeness will make for success in a few days. There are many people who would be glad of the opportunity to subscribe to The Glendale Evening News if presented to them by a boy or girl who wants to win a \$65 Harley-Davidson bicycle.

There is, always room for more entrants in this subscription club, according to A. T. Blanford, the manager of the youthful solicitors. Inasmuch as the number of wheels is practically without limit, there is a chance for everyone entered to win.

All that is necessary is to hurry and get those twenty new yearly subscriptions. Some interesting announcements will be made next week.

They motored up by way of Lancaster, but found the road being repaired between that city and Mojave and traveling bad, so the return trip was made by way of Bouquet Canyon.

The fishing was especially good in the streams near Mammoth Lake, and they also enjoyed many delightful tramps as there are some wonderful views from the peaks near the camp. They found supplies easily obtained and feel that their trip was a great success.

## Girls Not Missing, They Are at Home, Both Safe and Happy

It was all a girlish prank. No harm was intended; the consequences were not serious. And they say, "Never again!"

For charming Marjorie Brown, 15, daughter of Mr. and Mrs. F. H. Brown, 323 Salem street, Glendale, and her companion, Gertrude Thompson of Palms, reported as "missing" are not missing at all. They are at home; they are safe; they are good girls, and they only left their homes to camp out over night.

Reading an adventure story caused them to write a note to their parents in which they said they were going "east." Well, they went east as far as the end of the car line, made camp in a farmer's back yard, and prepared to spend the night there, for Marjorie is a member of the Girl Scouts and knows just what to do.

Twilight came. Then darkness. The girls became frightened. The farmer and his wife smiled. A telephone was near. Marjorie decided they had better cut short their camp life. So Mr. and Mrs. Brown were informed where the girls were, and Mr. Brown brought them home by auto.

So, you see, the "mysterious disappearance" was not that at all. It was just a girlish prank that started in fun and ended most happily and satisfactorily for all concerned.

Marjorie is a pupil at the Glendale Union High school, is an unusually studious and quiet girl and numbers among her friends some of the best known girls of Glendale. She had no idea the little plan to camp out over night would cause so much excitement.

Boys camp out all night, why shouldn't girls, especially when one has camped out many times before and is a member of the Girl Scouts?

## Sees Alleged Slayer, So He Tells Police

SAN FRANCISCO, July 23.—Herbert H. Brecht, friend of the murdered laborer, Dennis Russell of Roseburg, Oregon, believes today that he saw Russell's alleged murderer in a San Francisco hotel.

"I had never seen Dr. Brumfield before," Brecht told the police here, "but I am sure from pictures I have seen of him that it was the man."

Brecht said that not long ago Dr. Brumfield went to his friend Russell to get him to remove some stumps on his land and that Russell, being unfamiliar with the use of powder in the work, asked Brecht to help him. Brecht intended to do so but was called away before the understanding was complete.

Yesterday Brecht was sitting in a hotel lobby here and a well dressed man sat down beside him.

"Well," said the stranger, "I see they got the Kaber woman."

Brecht casually remarked that he was not interested in the Kaber murder but that he would like to see the man who murdered Dennis Russell captured.

Without a reply the stranger jumped from his seat and hurried off.

Brecht was so surprised at the man's sudden action that he tried to follow him but got only a glimpse of the man's face.

Brecht firmly believes it was Dr. Brumfield and police here are investigating the story today.

## Make More Arrests In Deportation Case at Turlock Section

TURLOCK, July 23.—Five more arrests as a result of the Japanese deportations here were made this morning by Chief of Police Stahl.

Four persons have given the authorities a complete account of the affair, Stahl stated, and whole-sale arrests will take place today as fast as he can locate the parties wanted, he indicated.

Those arrested today were Frank Harden and Bill Borden, alleged to have driven the trucks in which the Japanese were deported; Clarence Headstrom, rancher; an itinerant worker nicknamed "Red," and Lamar Jackson, a local worker.

They were immediately taken to Modesto, where they were placed in jail on charges of kidnaping and inciting a riot.

Practically all of the Japanese have returned to this district. From the number seen on the streets there is no indication of any trouble ever having taken place. They are being furnished adequate protection by the authorities, who have urged all those driven out to return.

There is now ample labor to handle the cantaloupe crop, growers said. A survey of conditions among growers indicated that they have sufficient labor, both white and Japanese, and that very few of them will suffer losses as a result of the deportations.

Large numbers of the itinerant workers have disappeared, having "run for cover" when the seriousness of their part in the affair became apparent to them.

The federal authorities are now working with Sheriff Dallas. In addition to the sheriff's force, a large number of federal operatives were in this district yesterday and today.

## AUTOMOBILE SECTION

Glendale Evening News, July 23, 1921

**DOESN'T THIS MAKE YOU WANT TO CRANK UP AND GO?**  
Greater proof of pleasure afforded vacationists by automobiles  
is not needed other than the columns of The Glendale Evening News  
each day this summer.

Mr. and Mrs. Sequoia Park and Mrs. Yosemite Valley  
have returned from a delightful motor trip to the playgrounds of  
California, states the news writer.

And then there is elucidated the details of camping in the moun-  
tains, catching fish, seeing deer and bear, canoeing, horseback rid-  
ing, tobogganning, surf bathing, etc., all brought to the residents of  
Glendale through the speedy, easy riding motorcar.

But two days away by good boulevards one will find almost any  
kind of amusement to be found in the world in this wonderland of  
the golden west. Not alone do the patrons of the motorcar dealers  
enjoy the pleasures afforded by the machines for this week-end finds  
many of them away, leaving their competent salesmen in charge.

In case the dealers themselves are here, it is a safe bet that their  
wives are enjoying the seaside or the mountains for vacation time  
is upon us. An automobile will give your outing a broader meaning  
and the touring cost is comparatively small.

### Ever Happen to You? Dealers May Stop It

TURLOCK, Cal.—Did you ever cut  
open a nice, cool-looking melon, and  
then find it hard and green and un-  
eatable?

Well, you won't again, if the Tur-  
lock chamber of commerce and the  
dealers of this district can prevent  
it.

Farmers, dealers and shippers in  
the county have pledged themselves  
to unite to stop the shipment of  
green melons, and proper inspection  
has been arranged for condemnation  
of all unfit fruit.

### Old Shirt and Baggy Trousers for Harding

By RAYMOND CLAPPER

United Press Staff Correspondent  
WASHINGTON, D. C., July 23.—  
President Harding set out by motor  
early today to join Henry Ford and  
Thomas A. Edison on a short camp-  
ing expedition along the upper Po-  
tomac at the foot of the Blue Ridge  
mountains.

He expects to reach the camp,  
which is pitched on the West Vir-  
ginia side of the Potomac some  
twenty-five miles from Hagerstown,  
Md., in time for a hearty barbecued  
lunch.

This is Harding's first adventure  
at roughing it since he was inaugu-  
rated, his last having been at Point  
Isabel, Texas, shortly after election.  
He will have a chance to get into  
an old shirt and baggy trousers and  
kick around over the rocks and  
through the brush and fish if he  
cares to.

Harding's arrival at the camp,  
which was pitched yesterday, will  
mark his initiation into the famous  
nature club which Ford, Edison and  
the late John Burroughs, the natu-  
ralist, formed years ago. There has  
been a vacant bunk in the famous  
club's camp since the famous natu-  
ralist died and Harding has been  
elected to take his place. He is the  
first president since Roosevelt died  
to get back to nature in order to  
break the isolation of formal White  
House life.

Roosevelt and Burroughs were fast  
friends and went on many such trips  
as this together.

### She Whistled; Accused of Insanity; 'Mistake'

EUREKA, Cal.—Arrested for  
whistling. This sounds like the com-  
ic man's idea of the "blue law" re-  
gime. But it happened to Miss Janet  
Sunter of Eureka.

She whistled, she admitted.  
But George Meakin, a stranger in  
town, heard her, and misinterpreting  
the promptings of a sunny disposi-  
tion, reported to the police that she  
was out of her head, and needed at-  
tention. She was brought to police  
court.

Did the judge draw a long face  
and fix a heavy, heavy penalty? He  
did not.

"It's all a mistake," he said.

### Henry L. Howe Goes to Coachella Ranch

Henry L. Howe of 446 Burchett  
street left the first part of this week  
for his ranch in Coachella valley, on  
a business trip. Mr. Howe, who is  
principal of the Coachella high  
school, will return to Glendale next  
week, planning to spend most of the  
summer here before returning to the  
school in September.

## PREDICTS COAL FOR AUTOMOBILE FUEL, COTTON BODIES

Economist Says Tendency In  
Auto Building Is Toward  
Much Lighter Models

Roger Babson, economist, who has  
been making a personal survey of the  
automotive industry, recently spoke  
before a gathering of business men.  
In the course of his remarks Mr.  
Babson said that the current in au-  
tomobile channels was toward lighter  
models than are now being manufac-  
tured.

He pointed to the two lines of ex-  
periment that were fundamental to  
the automotive industry, in his op-  
inion. One was the use of bituminous  
coal dust for fuel and the other was  
the development of cottonoid and pa-  
peroid bodies for lighter construc-  
tion.

### Experiments Being Made

"I happen to be conversant with  
experiments now being made by sev-  
eral automobile manufacturers in  
the use of bituminous coal dust as  
fuel for automobiles instead of gaso-  
line," said Mr. Babson, "and the re-  
sult of the experiments so far indi-  
cates that within a few years gaso-  
line at high prices will no longer be  
used as motive power for automo-  
biles.

"The coal dust will be blown into  
the carburetor of the car and burn  
with sufficient intensity to provide  
all the heat and power necessary for  
the operation of the machine.

"Fifty cents' worth of coal dust  
thus utilized will carry a car the  
same distance that five dollars' worth  
of gasoline now carries it. This de-  
crease in the cost of operating an au-  
tomobile will greatly increase the  
use of automobiles.

### Cottonoid or Paperoid Used

"I have witnessed experiments  
with cars whose bodies are made of a  
combination of formaldehyde, glue  
and cotton, a material that has come  
to be known as cottonoid. Similar  
material may be made out of paper  
as one of the three ingredients, so to  
speak, instead of cotton.

"So we are to have automobiles  
with cottonoid or paperoid bodies,  
making the car much lighter, and  
more durable and cheaper.

"I saw an experiment made with a  
car that had a cottonoid fender. The  
car was made to collide head on with  
a brick wall. The cottonoid fender  
gave in like rubber and rebounded  
the car like a rubber ball. Such a  
fender does not break or bend like  
steel, but has resiliency and suffi-  
cient strength to protect the ma-  
chine in collision.

### Got This Disease? It Is Common In Cities

Pedestrians afflicted with "diag-  
nolitis" are one of the greatest  
contributing causes to auto ac-  
cidents, according to officials of the  
Automobile Club of Southern Cali-  
fornia.

In analyzing the causes of hun-  
dreds of motor accidents throughout  
Southern California, officials of this  
club have come to the conclusion  
that pedestrians who cross streets  
and roads in the center of the blocks,  
and diagonally at corners cause a  
large portion of the grief reported  
in the newspapers.

Between intersections of streets  
and roads, it is pointed out, street  
cars and motor vehicles make their  
greatest speed, and it is here that  
most pedestrians are hurt when  
stepping suddenly out from between  
cars parked at the curb into the  
lanes of traffic.

Crossing diagonally at a street in-  
tersection, the pedestrian has to look  
eight ways at once, like a spider, to  
avoid being run down—while if he  
makes a square corner, he has but  
two ways to look.

The human neck, point out Auto  
club officers, is not constructed like  
that of an owl, and because it isn't,  
enabling them to look around the  
points of the compass when cross-  
ing a street diagonally, they are  
often injured.

The Los Angeles Safety Council,  
composed of the Chamber of Com-  
merce, Auto club and safety engi-  
neers maintain that failure to ob-  
serve traffic officers whistle not only  
exposes the pedestrian to danger, but  
ties up traffic to a large extent. An-  
other bad habit indicated is that of  
going around the back of street cars  
in the cities and emerging on the  
other side without hesitating to see  
if any vehicle is approaching.

Southern California is the only  
territory, it is pointed out, where  
strict laws do not govern the pedes-  
trian as well as the vehicle.

### WORN ENGINE BEARINGS

Worn engine bearings can be de-  
tected by the oil gauge pressure. As  
the bearings wear, the oil circulates  
more freely and the pressure drops.  
If a persistent drop in pressure is  
shown on the gauge and the regula-  
tor is known to be right, it is safe  
to assume engine bearing wear.

### AIR GAUGE ON VALVE STEM

To lessen the labor of testing the  
air pressure in an automobile tire a  
new gauge forms part of the valve  
stem and is covered with a heavy  
glass dust cap that is transparent.

## Newly Reduced Prices Increased Value

The plain statement of a price reduction tells less than the  
full Nash story.

For the Nash manufacturing efficiency and economy that  
made possible new prices also added quality to Nash cars.

The big Nash plants at Kenosha and Milwaukee are the  
finest works that could be devised.

Ample finances provided the most modern machinery.  
Long experience developed the most effective shop prac-  
tice. Aid Nash production ability is constantly finding  
ways to build more economically while building more  
finely.

The new lower first cost means a lower final cost because  
of the many betterments continually being embodied in  
Nash cars.

That is exactly what Nash value stands for—paying less  
and getting more in able performance, in durability, and  
in solid comfort.

The worth of every Nash car is further safeguarded by our  
Nash service that is territory-wide and unfailingly  
prompt.

### State Troops Ready to Guard Governor From Being Arrested

SPRINGFIELD, Ill., July 23.—  
State troops were ready to spring to  
arms on twenty minutes' notice today  
to protect Governor Len Small from  
arrest.

The governor, charged with em-  
bezzlement of \$500,000 state funds,  
will "resist arrest to the uttermost,"  
it was stated at the state capitol to-  
day.

Adjutant-General Frank S. Dick-  
son was flitting around the state  
house in full uniform following his  
conference with Small, during which  
he stated that the militia could be  
mobilized as soon as twenty minutes  
after the governor issued the call.

Judge Smith has given Governor  
Small until Tuesday to surrender and  
give bond, and it is thought that the  
sheriff's forces at that time will at-  
tempt to take the chief executive of  
Illinois into custody.

The governor, by his own state-  
ment, will resist arrest at that time  
unless he undergoes a radical change  
of mind.

Governor Small refuses to submit  
to arrest on the grounds that it  
would be the surrender of the execu-  
tive powers of the government to the  
judiciary. His position, as stated by  
his attorney, ex-Governor Fifer, fol-  
lows:

"To incarcerate your governor is a  
flesh wound, but to break down the  
institutions founded by your fore-  
fathers—that is blood poison."

Small was indicted by a grand jury  
for alleged conspiracy and embez-  
zlement in connection with the loan of  
state funds to a bank which, the  
grand jury claimed, existed only on  
paper.

A. Gelmor, tailor at 138 South

up in a hospital several weeks ago,  
severely injured as the result of an  
auto crash. They did not know  
where their Ford sedan was, nor did  
Mr. Gelmor appreciate the value of  
the Union Automobile Insurance so  
well then as he does today.

Through the agency of A. L. Baird,  
manager of the R. L. Kent company  
real estate department, his car is be-  
ing overhauled at Jesse Smith's Ford  
agency at the account of the insur-  
ance company.

Only another instance proving that  
it pays to insure promptly. The Uni-  
on Insurance company of Lincoln,  
Neb., is represented here by Clinton  
L. Booth and Mr. Baird.

## MUSICAL CLOWNS IN VAUDEVILLE ROAD SHOW TONIGHT

Many Different Instruments  
Played by Troupe; Eileen  
Percy Is Screen Star

Tonight is the big night at the Glendale theatre when the Melkies and Dunn vaudeville road show will be the chief attraction with the feature picture, "The Husband Hunter," starring Eileen Percy as another big feature.

On the vaudeville tonight will be found Manhattan's Musical Clowns, who play twenty different instruments; Gordon and Rica, sensational European singers, dancers and acrobats; King and King, novelty dancers, and Rookie Lewis, black face comedian.

The usual popular prices will prevail tonight with two shows, one at 7 and the last at 9 o'clock.

"The Husband Hunter" with its innumerable funny situations, keeps one laughing from the time Myra Hastings, the husband hunter, starts out to capture the young man she has never seen, until she accidentally discovers she has been the innocent victim of a practical joke played by her fiancée and his friend, and turns the tables on him. Miss Percy's work as the charming and vivacious Myra leaves nothing to be desired.

## Special Department For Auto Business

So rapid has been the growth of the automobile transportation industry the railroad commission announced the establishment of an automobile department under the supervision of Charles A. Beck.

According to the announcement this department will be responsible for all detail work connected with the automobile stage and truck matters, will care for all informal complaints and correspondence, keep time table and schedule filings, handle applications which can be disposed of by ex-parte orders, handle and assign applications requiring public hearing, answer all verbal inquiries and in general be responsible to the commission for all work in connection with the operation of stages and trucks under its jurisdiction.

Rates, fares and regulations will be handled by the rate department. Issuance of stock, bonds, notes or other securities and the filing of annual or other financial statements will be handled by the department of finance and accounts.

The service department as heretofore will look after safety of operation, equipment of cars and the like.

The commission announces that Mr. Handford will be responsible for the formulation of definite lines of policy affecting auto, stage and truck transportation so as to promote uniformity of decisions.

Opinions and orders, excepting the minor ex-parte orders, will be reviewed and concurred in by Mr. Handford before presentation to the commission for its consideration.

In all matters of accident, investigation and other questions incidental to transportation from the service standpoint, the service department will continue to function through Mr. Handford reporting to the commission as heretofore.

## Tariff and Taxation Now Before Congress

By L. C. MARTIN  
United Press Staff Correspondent  
WASHINGTON, July 23.—Congress today was fairly started upon the business for which President Harding summoned it into special session—tariff and taxation.

The house ways and means committee is at work on tax revision and the senate finance committee is about to begin tariff hearings.

The end for both pieces of legislation is yet a long way off, but within a few days congressional leaders expect to be able to give the country a pretty good idea of what it may expect with respect to these two important matters.

In this connection Senator Penrose, chairman of the finance committee, today issued a note of warning to the business men of the country and an appeal to their good sense.

Penrose does not look with favor on the proposal that the tax and tariff bills be combined, he indicated. He says he is going to get the tariff bill gets through the house. Some of his colleagues on the committee don't subscribe to that. Led by Senator Watson of Indiana they are going to try to get the tax bill considered ahead of the tariff.

## CITY OF BURBANK'S NEW POLICE CAR READY TO GO

Buick Touring—Chosen From  
Tanner & Hall; Specially  
Equipped for Duty

An automobile with a shrieking siren was driven out of Glendale this noon.

It sounded like trouble. Investigation proved it to be the new Buick touring car especially equipped for the Burbank police department and sold through the agency of Tanner & Hall of this city.

Besides a siren, the speedy, durable car is equipped with a spotlight, bumpers, special springs and other things necessary to police duty in a wild and woolly frontier city such as Burbank.

Proud of Selection

W. A. Tanner feels proud of the selection made by the Burbank city trustees at their meeting Thursday night and he has given personal attention to their order as it is expected that this machine during its lifetime will have many encounters with lawbreakers.

Experience has proved that Burbank needs such protection as a fast car affords.

## Open Opposition Given to Lloyd George Plan

By CHARLES M. McCANN  
United Press Staff Correspondent

DUBLIN, July 23.—Open opposition to acceptance of Premier Lloyd George's Irish peace offer was expressed by Sinn Fein leaders here today.

It was predicted that, barring new obstacles, "President" DeValera would return to London within a fortnight—not to accept the plan in its present form.

The general sentiment of Sinn Fein leaders is that a resumption of hostilities is preferable to a potential dominion home rule which does not include the right to secede from the empire, to raise a separate army and which lacks any of the free features which comprise the constitutions of other dominions.

There appeared, however, one vital reason for hope. A sober sincerity holds both factions against reopening the old war wound, which everyone here believed would be a merciless fight to death.

There seems a sentiment here in Dublin that the Irish republican army has won its age-old war.

## Japan's Position in Far East 'Explained'

NEW YORK, July 23.—Japan's position in the far east is no less special than that of the United States on this hemisphere said Hoshio Mitsunaga, president of Nippon Dempo Tsushin Shaw, in an address delivered at a dinner in his honor last night given by W. W. Hawkins, president of the United Press.

Prominent publishers and newspaper correspondents representing newspapers in all parts of the country, attended.

Dwelling on Japan's position in the Far East, Mitsunaga added that it was important to remember that Japan's position there was "special, not paramount or predominant."

"Therefore," he said, "Japan must exercise the most prudent reserve in respect to any policy which might subject the Orient to the will of the very thing we all oppose—absolutism. Japan looks for open co-operation and not for opportunity to impose her will."

Paul Patterson, president of the Baltimore Sun and vice-president of the American Newspaper Publishers' association, welcomed the guest of honor in an address which aroused the enthusiasm of the publishers present and was warmly cheered.

## Rescues Chickens From Reptile at Exposition

PORTLAND, Ore.—A species of boa constrictor which is being exhibited at a carnival here, went hungry today, and a large crowd of spectators counted themselves somewhat out of pocket when Humane Officer Churchill broke up a hypnotism session and rescued two chickens—the snake's potential dinner.

The "barkers" for the show had announced that the reptile, which is thirty feet long, was just about to partake of its dinner by hypnotizing and later consuming two live chickens. The crowd flocked in and paid their money. The chickens were put into the arena, and the lethargic reptile perked up and began to fix them with his eye. The hypnotic eye was just beginning to have its effect when Churchill, who was at the carnival, got wind of the affair and boldly entered the concession, leaped into the arena, seized the two stationary chickens, and left with one under each arm, issuing orders that the snake, proprietors, and concession would be seized if any more live chickens were offered the reptile as the piece de resistance of a luncheon.

## Camp De Luxe Ready for Very Distinguished and Exclusive Party

HAGERSTOWN, Md., July 23.—President Harding's bunk is ready, and there is a waiting plate and chair at the "back to nature camp" today.

Twenty-five miles west of Hagerstown, at a secluded spot along the river, Henry Ford, H. S. Firestone, Thomas A. Edison and Bishop Anderson are in camp waiting for the guest of honor.

Trucks loaded with camping equipment left Hagerstown for the camp site before daylight today. A retinue of cooks, chauffeurs and other camp helpers rode the trucks.

Ford furnished the camping equipment. Another truck was loaded with provisions from the Firestone farm near Columbus, Ohio—dressed fowl, garden truck and dairy products were packed in the portable refrigerators.

Most of the cooking will be done over open fires in true barbeque fashion. There were several oil stoves for emergencies, however.

Portable "vest pocket" tables and chairs answering all Ford and Edison ideas of efficiency will go to help make the campers comfortable.

Harding will have a chance, too, to follow the horseback riding prescription of Dr. Sawyer, his physician. Thoroughbreds from the Firestone farm were brought with the party with which to explore the wild hill country near the camp site.

The president will keep in touch with the outside world through a portable wireless outfit furnished by Edison.

## Lanier Bartlett Gets Call From Wilds and Joins Camping Party

Lanier Bartlett, widely known as a motion picture scenario writer and a member of the firm of Bartlett & French, local dealers in Chandler and Cleveland motor cars, left Glendale yesterday in his Cleveland for Camp Baldy where James H. French, the other member of the firm, will join him this week-end for three days of camping and fishing.

It is to be honestly believed that dealers get all of the enjoyment out of "the call of the open road" which they advertise.

## Glendale Troops Soon to Arrive in City

F. H. McGinnis, general passenger agent for the Southern Pacific, states that according to advices received at his office the special train of National Guards who have been spending the past two weeks at Yucca National park will leave on the return trip to Los Angeles at 10:30 Monday morning, arriving late in the evening.

Glendale's Fifth Separate company and battalion headquarters are in the contingent. However, from information received from the camp it may be that many of the men will return over the week-end in order to be at work on Monday.

Dorothy Washburn, missing Los Angeles girl, who recently created a sensation by writing letters from San Francisco saying that she had been kidnapped and appealing for aid, is under arrest in Los Angeles today.

She was found late last night working in a Los Angeles confectionery shop. Detective Sergeants Shy and Simpson booked her on suspicion of grand larceny.

Paul K. Roman, whom the girl alleges was her abductor at San Francisco, was also arrested, charged with stealing \$2000 worth of old stamps.

Roman, according to the girl, kidnapped her and tried to make her his accomplice in thievery, threatening to kill her if she "squealed." She denied she had anything to do with the stamp theft.

**Deputy Sheriff Accused**  
Deputy Sheriff George Ruprecht and Mrs. Lettie Farrell, 18, wife of a prisoner in the county jail, are held without bail in Los Angeles today, following a joyride that culminated in a spectacular down-town smash early this morning.

The pair are alleged to have been intoxicated. Their machine wrecked a telegraph pole and a cigar store at First and Broadway, and the car was completely smashed.

## Report of Cannibalism Is Being Investigated

FORT McMURRAY—Canadian mounted police have left here to investigate reports of cannibalism among the Caribou tribe of Indians. Human bones, it is stated, have been brought in to Fort Smith as evidence. It is reported that starvation has forced the Indians to this gruesome extremity as a result of the extinction of caribou, their only food, which a few years ago was so plentiful the Indians ate only the tongues and specially delicate portions of the animals.

Narcotics are pouring from across the Rhine into Paris to such an extent that it has drawn a cry of alarm and protest from the French Academy of Medicine. Airplanes drop five or ten-pound packages at prearranged spots and agents in automobiles distribute the drugs.

## Horrors! Hospital Has Fire! Patients Go Mad!

VANCOUVER—Fire in the hospital!

Yelps and howls of the patients mingled with the shouts of the firemen who chased the sick and injured through the smoke-filled corridors. Impelled by the one mad desire for escape the patients of all breeds and descriptions, forgetting their ailments, rushed wildly about, some even fighting, scratching their rescuers.

One patient, wholly unclad, leaped from a second-floor window to the fence, ran nimbly along it, and escaped.

One by one they reached safety. Seventy dogs, and nine cats—when the Vancouver dog and cat hospital burned.

## Turns Hose on Mud to Blow It Far Away

EUREKA, Cal., July 22.—(United Press)—By application of the principles of hydraulic mining, Fire Chief Herrick saved the city a large bill for dredging.

Accumulation of mud had practically filled the city slip, when Chief Herrick decided on action. Connecting about 300 feet of fire hose with the nearest hydrant he turned the highest pressure into the channel and blew the mud bank into the bay.

The New York state health department warns children against the pastime of making miniature balloons from ruptured rubber ones by sucking or blowing against small pieces of the rubber held against the lips, because the dyes used in coloring the balloons are poisonous.

Boston has the distinction of having the first garage for the storage and repair of automobiles, which was opened in the spring of 1899.

## Deaths From Drowning Decreasing, Is Report

SACRAMENTO—Deaths due to drowning are on the decrease, according to L. E. Ross, director of the bureau of vital statistics.

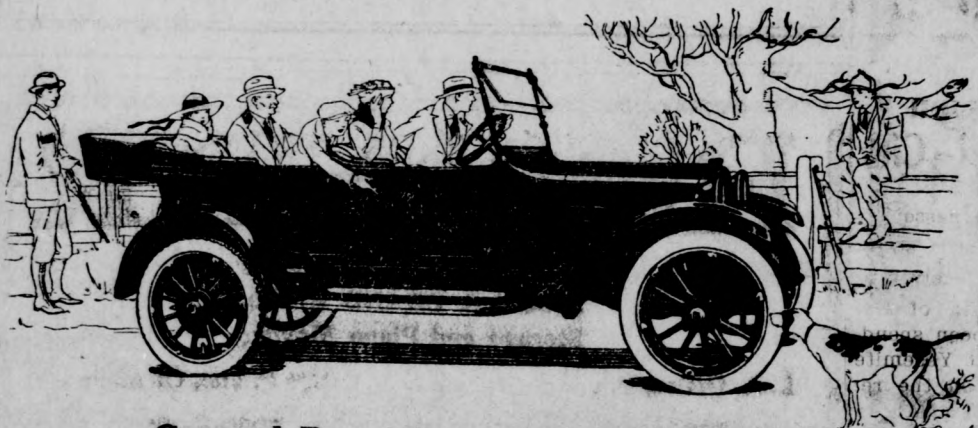

The bureau's records show that a total of 834 persons were drowned within the last three years. Of these 321 were drowned in 1918, 260 in 1919, and 253 in 1920.

Of the total drowned 98 per cent were males and 68 per cent of these were between the ages of 15 and 64. One out of every 8 was under 5 years of age.

In proportion to the population of the state there were more Japanese drowned in the state than any other race. This is explained by the fact that many Orientals are engaged in the fishing industry.

Two former service men led a crowd of several hundred persons in an attempt to lynch a Brooklyn truck man who wrapped a chair in an American flag when moving a company's office furniture. The truckman was held in jail for examination.

## SPECIAL NOTICE

### An Important New Factory For Los Angeles

I want my fellow townpeople to have an opportunity to share the substantial profits that will be made by the Modern Glass Hollowware Factory being erected at Richmond and Daly Streets. Every member of the Executive and Sales forces have made substantial investments in the Company's stock. The foremen, mechanics and operators are all stockholders—these workers have purchased \$83,000.00 of the Company's stock. The Management and also all important workmen have had over 20 years' successful experience in the line out here on the Coast. There has been no promotion stock issued and no commissions paid for selling stock—every nickel has gone into the treasury. Here is an exceptional opportunity to "Boost" Southern California and enjoy large earnings while doing so.

The Factory is nearing completion—let me drive you over to the plant on a tour of inspection and give you detailed information about this much needed sound industry. It will be a pleasure to call and see you. Please write or phone.

## Insure Your Time

If you are working for wages

time to your employer.

That time is as valuable to you  
as the stock on a merchant's

He insures that stock against

You should insure your time

If you were hurt and couldn't

## SPECIAL PROGRAMS WILL BE FEATURE SUNDAY NIGHT

Methodist Church Will Give  
Elaborate Music Numbers  
During the Summer

A specially prepared program of  
music will be presented at the First  
Methodist church Sunday night. This  
will include an organ recital that be-  
gins at 7:30 o'clock and precedes the  
special program.

It is the purpose of this church to  
give several such programs during  
the summer Sunday evenings. There  
will be an evening with Tennyson;  
another will be given to the ren-  
dition of negro spirituals.

On next Wednesday night, after  
the prayer meeting hour, the Whit-  
ney boy chorus now receiving so  
much attention in Los Angeles, as  
well as up and down the coast, will  
render their great program. This  
chorus is made up of fifty boys.

## Young Men Fashion Latest Style Gowns Out of Old Papers

The members of the Therataya  
club of the First Presbyterian church  
were hostesses last night at a party  
given at Hotel Gray to the members  
of the Dynamis club. Arrangements  
for the evening's entertainment were  
in charge of Miss Helen Engle,  
president of the club, who was as-  
sisted by Stella Bellue, Eleanor Fos-  
ter and Mildred Cole.

Various games provided diversions  
for the evening, one of the features  
of which was a fashion show. The  
young men were given three sheets  
of newspapers and twelve pins and  
were to construct gowns for the  
young ladies present, after which the  
fashion show was held.

Prizes were awarded to Lloyd  
Culver, George Stanley and Robert  
Howlett as having created the most  
exclusive gowns. There were more  
than forty present and a very de-  
lightful evening enjoyed, during  
which refreshments were served.

## Harry Smith's Picture and Art Shop Pleases

The art and picture-framing shop  
of Harry Smith on East Broadway is  
a revelation to those who are inter-  
ested in the unusual in mirror, pic-  
ture and photo frames. Mr. Smith  
is placing the results of twenty-five  
years' experience in his work and the  
finished product would be an added  
decoration to the most costly home.

All the work of Mr. Smith is hand  
carved and hand decorated and is  
finished in exceptionally good taste.  
He converts the individual art tastes  
of his patrons into exclusive designs  
and colorings and also caters to  
lovers of oil paintings. Mr. Smith  
has several very creditable sketches,  
done by himself, but is principally  
engaged in filling orders for a rap-  
idly increasing Glendale patronage.

## B. H. Wood In Charge of Rock Bottom Store

B. H. Wood has located in Glen-  
dale as the manager of the new Rock  
Bottom store. Mr. Wood was two  
years ago in charge of one of this  
company's stores on West Pico street,  
Los Angeles, and has had a varied  
experience along mercantile lines.

Mr. Wood has just left the employ  
of the Albers Bros. Milling company  
of Portland, Oregon, where he was  
in a sales and executive position. He  
welcomes the substitution of Cali-  
fornia sunshine for Oregon mist.

## Railroad Engineer Is Retired at Age of 3

ALAMEDA, Cal.—Johnny Malmin,  
aged 3, is a retired railroad engi-  
neer.

He ended a period of faithful ser-  
vice to the Southern Pacific company  
just recently.

His services terminated when he  
was discovered aboard one of the elec-  
tric trains by Conductor J. F. Geary.  
Johnny explained that he "was a  
engineer and had come down to run  
the railway train."

Johnny was informed that the  
company had decided to give him a  
vacation, and through the police he  
was returned to his home.

## Bertha Ramzoni Dies After Long Illness

Bertha Ramzoni passed away July  
21 at the age of 31 years. She leaves  
a widower, Peter Ramzoni, and her  
father, Julius Olsen. Mrs. Ramzoni  
had been a resident of Glendale for  
two months, coming here from Phoe-  
nix, Ariz., in hopes of regaining her  
health. Mr. Olsen will accompany  
the body of his daughter to San  
Francisco today. Funeral services  
and interment will be held in that  
city. The Jewel City Undertaking  
company is in charge.

## Campers Fight With Mosquitos for Right to Stay In Canyon

Mrs. Louise Purnell of 353 Ivy  
street, in company with Mr. and Mrs.  
Gale Morgan of Hollywood and Mrs.  
Hutchins of Los Angeles motored to  
Brown's canyon, above Chatsworth  
last Saturday. Mrs. Purnell re-  
turned yesterday morning. She  
states that the mosquitos in the  
canyon at night were unbearable.

About a month ago Mrs. Purnell  
and party made a trip into the can-  
yon and at that time there was quite  
a bit of water in the creek which  
ran through it. On the recent visit,  
however, the creek was practically  
dried up and it was necessary to car-  
ry water over a mile. Mrs. Purnell  
states that it would have been a  
most enjoyable camping trip had it  
not been for the mosquitos.

## Members of Bridge Club Are Guests of Mr. and Mrs. Putnam

Afternoon Bridge club were enter-  
tained Friday at Balboa Beach by

dents of Glendale who are spending  
the summer at their cottage at Bal-  
boa. A delicious five-course lunch-  
eon was enjoyed at the Balboa Yacht  
club on the balcony overlooking the  
ocean. The afternoon was spent on  
the ocean aboard Mr. Putnam's  
yacht, "The Joy," which won in the  
grudge race to Avalon last week-end.

Guests included Mrs. Harry Pow-  
ers, Jr., Mrs. Charles Meadows, Mrs.  
G. H. Robinson, Mrs. Charles C. Car-  
roll, Mrs. E. E. East, Mrs. Frank

## Watching Scoreboard

Yesterday's heroes—Deal and  
Grimes. They hit homers in the  
ninth, driving in four runs that gave  
the Cubs a 6 to 1 victory over the  
Phils.

The Pirates and Braves divided a  
double bill. Hamilton gave the  
Braves a 2 to 1 victory in the first  
game when he walked Holke with the  
bases filled in the tenth inning.

The second went 14 innings, Pitts-  
burg winning 4 to 3 on Bigbee's sin-  
gle, a passed ball and Carey's single.  
Brooklyn strengthened the hold on  
fourth place by trimming the Cards  
twice in succession, 6 to 5.

Walter Reuther finished the game.  
The Reds mauled Phil Douglas  
and Cecil Algernon Causey while  
Luque was holding the Giants safe  
all the way and they won 11 to 2.

## WALLACE REID IN 'TOO MUCH SPEED,' PALACE GRAND

Proves In Latest Picture He  
Is No Novice as Driver  
of Racer

Wallace Reid again proves he is  
no novice as a racing driver, in his  
latest Paramount speed picture, "Too  
Much Speed," which was shown at  
the Palace Grand theatre, to high-  
delighted audiences yesterday. It  
will be seen again today.

Mr. Reid is seen as Dusty Rhoades,  
a racing driver who gives up the  
game to win old Pat MacMurrans  
consent to marry his daughter, Vir-  
ginia. Father and prospective son-  
in-law quarrel, however, and Dusty  
determines to enter the forthcoming  
race. He secretly buys one of Pat's  
racing cars, which has been idle for  
two years, and enters the race, to the  
amazement of the father, who is  
powerless to prevent Dusty's entry.  
Dusty wins the race and wins a big  
contract for old Pat from a South  
American dealer, as well as a bride.  
Agnes Ayres is leading woman and  
others are Theodore Roberts, Jack  
Richardson, Lucien Littlefield and  
Guy Oliver.

Tomorrow "Man, Woman, Mar-  
riage" is the feature picture. Other  
short numbers on every program are  
always interesting while the music  
is equal to the pictures.

## Group of Glendale Women Making Plans for City's Display

That warm weather does not de-  
ter women who are determined to  
stamp success on the departments  
which they have undertaken in the  
San Fernando Valley fair during  
September was proven by the group  
which gathered at the home of Mrs.  
Ella Richardson at 317 North Brand  
boulevard Friday afternoon, where a  
meeting was held to formulate plans  
for arrangements.

At a beautifully appointed table  
centered with myriad colored dahlias  
delicious refreshments were served  
by the hostess, assisted by Miss Es-  
ther Phillips, who later in the af-  
ternoon delighted with several well  
rendered piano solos.

Among those present were Dr.  
Caroline Paine Jackman, chairman  
of child welfare; Mrs. A. H. Mont-  
gomery, chairman of culinary de-  
partment; Mrs. J. I. Wernette, chair-  
man of plants and flowers; Miss Eva  
Daniels, chairman of needlework;  
Miss Alice Frank, chairman of arts.  
Prizes are to be awarded for the best  
individual exhibits, and as the wom-  
en of Glendale are noted for their  
ability in all directions, their co-  
operation to the success of the fair  
is appreciated.
